VISION

“

To recognized in the region, state and nation as an excellent physical therapy educational services with quality team of faculty, staff and students”.

”

MISSION

“

To inspire and educate among the best in world health care providers and confident humanistic for the people of Pakistan especially Karachi and our global community.

”

PROGRAM CORE VALUES

- Value truth, honesty and open communication.
- Consider academic freedom and debate necessary for program development and well-being.
- Expect all members of the Program to be thoughtful, considerate, patient and to maintain positive working relationships with each other.
- Expect transparency in administrative actions within the limits of protection of personal privacy as is in keeping with the public mission of the University and an inclusive Program community.
- Anticipate that each member of the Program will accept responsibility for their performance improvement and that of the Program.
- Expect professionalism (conforming to the standards of the academic and physical therapy professions) of each member of the Program community.
- Consider instruction that integrates research and practice and is offered within an environment that both challenges and supports students essential to the development of life-long clinician-scholars.
- Embrace diversity in patients, students, faculty and staff as essential to the development of effective physical therapy practitioners and leaders.
- Accept responsibilities to pursue scholarship that advances science and clinical practice.
- Value the integration of the best available evidence, clinician experience and patient values in the practice of physical therapy.
- Recognize that a high quality clinical teaching program is a vital part of the curriculum and integral to the success of the Program.
- Value service and public engagement as essential experiences that enhance student and faculty research, support curriculum development and promote the University, Department and Program as well as its faculty and students.

CHAIRMAN'S MESSAGE

It gives me immense pleasure to announce the launch of the third project of Memon Health & Education Foundation, Memon College of Physical & Rehabilitative Medicine. The vision of Memon Health & Education Foundation is to be role model for caring, curing, education, training, research and employment while the mission is to provide accessible and affordable quality healthcare and health education to all with empathy, dignity and respect, irrespective of their caste and creed, color, religion and ability to pay. Since the inception of Memon Health & Education Foundation, we are constantly striving to achieve the vision of the foundation in line with the mission statement.

We are proudly informing that the launch of Memon College of Physical & Rehabilitative Medicine is another milestone of Memon Health & Education Foundation and the third project in the sequential manner. We ensure the best education which is the combination of up-to-date courses, ultramodern infrastructure, renowned & dedicated faculty, well equipped labs, augmented & other facilities. We strive to achieve quality in education while ensuring overall development of the students. We also recognize the importance of providing a supportive and simulative learning environment using innovative teaching, learning strategies and technological advances. Our institution provides comfortable and peaceful stay in the campus with all the facilities for recreational and healthy living with care. On behalf of Memon College of Physical & Rehabilitative Medicine, I want to assure you that our efforts shall always be to offer the best possible education through our highly qualified teachers and our students will play a significant role in serving the patients.

Muhammad Ajaz Saya

DEPUTY CHAIRMAN'S MESSAGE

I am delighted on the launch of Memon College of Physical & Rehabilitative Medicine, another mega educational institute of Memon Health & Education Foundation. During the previous years, we realize the importance of Physical Therapy & Rehabilitation services while managing Memon Medical Institute Hospital. It is due to the fact that we have not only expanded the department of physical & rehabilitative medicine of MMI Hospital with the latest equipment's but also prioritize to establish a quality physical therapy institute which will not only meet the requirements of the current healthcare needs of the country but also cater to the future growing requirements.

Education involves developing the character, necessary skills and competencies to manage one's life journey and we strongly believe in supporting the students in their learning journey and make them successful. Remaining dedicated to our mission, we commit ourselves to equip students with a good foundation for knowledge and skills, while aspiring to better prepare them for their future, both professional and personal. The Memon College of Physical & Rehabilitative Medicine is going to play a significant role in producing the professional for the future. We understand that the quality education is the foundation for building the nation and we firmly believe to bring the experienced facility and create a learning environment.

As the Deputy Chairman of Memon Health & Education Foundation, I am confident to deliver quality education with the cooperation of our faculty members and bringing the educational revolution in the country.

Iqbal A Shakoor Bilwani

CEO'S MESSAGE

I am delighted on the successful launch of our third project of Memon Health & Educational Foundation. Memon College of Physical & Rehabilitative Medicine is the second educational institute of Memon Health & Education Foundation. It indicates our belief that education is a fundamental need of every human being and distinguishing human characteristics and making us superior among all the creatures. Education helps understand the high values of humanity and assist in making the civilizations just and strong. The importance of education is extremely higher in case of medical education. It is simply because the medical education is healing the patients in pain which is the biggest service to the humanity.

According to the national statistics shows that we are facing the serve shortage of the medical practitioners in the country and it is now the right time to start focusing on expanding the educational programs to meet the needs of the society. I am proud on the successful and the timely launch of Memon College of Physical & Rehabilitative Medicine. It is due to the commitment of Mr. Ajaz Saya, Honourable Chairman of Memon Health & Education Foundation and the members of the Office Bearers Committee who not only approved the project but provided us with all the support and the resources. This support enables us to complete the project and complete the affiliation, recognition and other requirements in the quickest possible time.

We are confident that the college will deliver quality education and our students will contribute in the growth of the country.

It is my message to our students and the faculty members to work hard so that our dream comes true and the name of our institute flies up in the sky.

Brigadier
Dr. Malik Waqar Ahmad Awan TI(M)-Retd

PRINCIPAL'S MESSAGE

I am immensely happy that with total dedication and commitment from office bearers (trustees) and sincere involvement of the CEO of the MMIH and the faculty members, the institution could produce excellent academic result in every stream of educational programs.

We have well qualified and dedicated teaching faculty who are putting all over efforts to bring out real educated professionals in the field of physical therapy.

Memon College of Physical & Rehabilitative Medicine are equipped with latest gadgets, teaching aids, laboratories (clinical and scientific), well-furnished classrooms with facilities of PowerPoint presentation has created a conducive and serene atmosphere for learning and teaching process.

I take pride that our faculty members are highly qualified and competent in teaching as well as clinical practice. We encourage our students to participate in research activities, along with our faculty members to publish articles in journals, paper presentations, and culture activities to grow their knowledge and body.

Our Out-patient department is one of the best designed and well equipped to establish the service for the national and international patients and for the teaching of students. We often do Community Program to showcase the area of improvement, familiarity of conditions, and through light in the student's mind to expand the area of growth in physical therapy.

We do assist our students for clinical placement in other hospital of Karachi. We assure that all our students will do better after passing out from our college.

Dr. Mohabbat Ali
Founding Principal MCPRM

PHILOSOPHY

Doctor of Physical Therapy is a dynamic and evolving profession which provides a unique service to individual, families, and communities. The practice of the profession demands the creation of a climate, which encourages the development of health behaviors, promotes the restoration of optimal functioning and assists in coping with irreversible illness or impending death. We believe that the physical therapist has a responsibility to promote the health, achieve the outcomes and enhances the standard of living. This profession recognizes the need to contribute to the advancement of knowledge through research; to operate within code of ethics; to set standards of practice and to promote the competence of individual professionals. We believe that to ensure the quality of physical therapy education, the adequate supply of proficient physical therapist. The primary aim of the institution is to provide students a conducive learning environment, to help them to kindle their latent skills, to help them to develop their full academic potential and to equip themselves fully to face a highly competitive world.
